

SolidWorks 3D Design Product Matrix

	SOLIDWORKS PREMIUM	SOLIDWORKS PROFESSIONAL	SOLIDWORKS STANDARD
PART AND ASSEMBLY MODELING			
3D Solid Modeling	■	■	■
Large assembly design capabilities	■	■	■
Advanced surfacing	■	■	■
Sheet metal	■	■	■
Weldments	■	■	■
Mold Design	■	■	■
Read PCB data as 3D parts	■	■	■
Direct model modification	■	■	■
Full ECAD-MCAD data exchange	■		
Piping/tubing Design	■		
Electrical Cable/Harness design	■		
2D DRAWINGS			
Automatic Drawing View Updates	■	■	■
Automatic Drawing View Creation	■	■	■
Dimensioning	■	■	■
Annotation	■	■	■
Bills of Materials, cut lists	■	■	■
Automatic hole tables, weld tables, and pipe bending data	■	■	■
International standards support	■	■	■
Drawing Compare	■	■	■
Standards Checking	■	■	
Flattened harness drawings	■		
DESIGN REUSE AND AUTOMATION			
SolidWorks Search	■	■	■
Design Automation	■	■	■
Configurations	■	■	■
Design Library	■	■	■
3D Models from Suppliers	■	■	■
Smart Components and Smart Fasteners	■	■	

	SOLIDWORKS PREMIUM	SOLIDWORKS PROFESSIONAL	SOLIDWORKS STANDARD
DESIGN REUSE AND AUTOMATION			
Standard Component Library	■	■	
Task Scheduler	■	■	
ANIMATIONS AND RENDERINGS			
Assembly animation	■	■	■
Walk-through/fly through animations	■	■	■
Photorealistic rendering	■	■	
DESIGN VALIDATION AND SIMULATION			
Collision and Interference Detection	■	■	■
Hole Alignment checks	■	■	■
Check manufacturability	■	■	■
Fluid flow simulation	■	■	■
Sustainability	■	■	■
Draft and undercut analysis	■	■	■
Cost estimation	■	■	
Tolerance stack-up analysis	■		
Kinematic motion simulation	■		
Structural validation	■		
COLLABORATE AND SHARE			
Import/export	■	■	■
3D for rapid prototyping	■	■	■
Utilize 2D DWG/DXF data	■	■	■
Protect information while sharing designs	■	■	■
eDrawings	■	■	■
Large Design Review	■	■	■
eDrawings Professional	■	■	
Feature recognition	■	■	
Data Vaulting and revision control	■	■	
Import scanned data	■
